

Cosmos™  
DELIVERY CENTER

Cosmos is ICC's state-of-the-art delivery center in Columbus, providing end-to-end software development and support.

**BUILT TO DELIVER, MADE IN AMERICA**

Our delivery model is crafted to suit the unique needs of each engagement. Need us on-hand for internal collaboration? You can count on us working onsite. Prefer to let our experts manage and deliver the work remotely? Cosmos helps you embrace the latest innovations without requiring allocation of your company's valuable physical space. Within Cosmos, we can assemble a collaborative, focused team for your project, in one accessible, U.S.-based location.

**A NEW DELIVERY MODEL FROM A TRUSTED PARTNER**

In today's rapidly evolving and tech-driven market, more and more companies choose to work with U.S. onshore outsourcing companies as an alternative to offshore development and onsite contracting.

As one of the largest private Midwest IT consulting companies, ICC is a leader in this rapidly growing domestic services space. Our state-of-the-art delivery center in Columbus, Ohio, has over 500 associates. The inherently low costs of the area combined with our perfected remote delivery model allows us to provide cost-effective solutions to our clients' technology needs.

Simply put, ICC's Cosmos delivery center allows us to deliver excellent work more efficiently than offshore providers, and less expensively than large technology services companies.

“ Onshoring is the answer to rising labor costs abroad and the need for agile, local teams in the same time zone that can react quickly to today's constantly evolving, tech-fueled customer needs. ”  
ZDNET

“ Onshoring helps U.S. companies remain competitive in the digital era, as well as develop the next generation of U.S. IT leaders. ”

## THE IMPACT OF ONSHORE

With the high cost of large tech consulting companies, the lure of offshore is understandable. But those cost savings come with their share of headaches, from time zone challenges, to language and cultural barriers. Offshore teams are often scattered throughout multiple locations, hampering collaboration and causing delays and misfires. With Cosmos, your business gets the best of both worlds: significantly lower project costs, with the efficiency and effectiveness of a U.S.-based project team.

radius of Columbus.

## THE RIGHT PARTNERS TO GUIDE YOU ON YOUR DIGITAL TRANSFORMATION JOURNEY

At ICC, it's not about how many years of experience you have, but about your willingness to learn and be part of a like-minded team of problem-solvers. That's why we invest in training the right people, to have the right knowledge and skills. We bring deep customer experience and analytics expertise to your application development project, and every team works hand-in-hand with industry experts to provide the critical context needed for success.

### GROWING EXPECTATIONS, UNPRECEDENTED POSSIBILITIES

More than ever, customers are empowered with pervasive access to information and a growing number of viable choices. Digital technologies have made it possible to reach, engage, and deliver value with extraordinary efficiency. ICC is uniquely positioned to help you address your biggest imperatives and transform your business.
